## SUMMARY

I have several years of work experience in Electrical Engineering and Recruitment. I recently decided to re-train and make a career in web development.

I am seeking a junior web developer position in full stack or back-end development. I'm open to any kind of work environment that will allow me to further develop my skills.

## EDUCATION

### GENERAL ASSEMBLY

Web Development Immersive  
October 2017 - January 2018

### SYDNEY UNIVERSITY

Bachelor of Electrical Engineering

## EXPERIENCE

### GENERAL ASSEMBLY STUDENT. OCTOBER 2017 - JANUARY 2018

Full time course covering an introduction to programming, databases and various technologies required for junior full stack developer

Projects include;

- Elemental - database driven website with info on Elements, Scientists and Countries. Ruby on Rails, Javascript, Bootstrap, Google Charts and geoChart, ThreeJS animations
- NORA - Real Estate application & Group Project. Rails back-end, React front-end.
- FM\_Booker - like Uber for Facilities Maintenance companies. Rails, Javascript, Bootstrap, google Maps API
- Project 0 - Games: Tic Tac Toe, Connect 4 and Othello. HTML / CSS and Javascript

### DATAHOUSE SOFTWARE DESIGN AND DEVELOPMENT 2006 - SEPTEMBER 2017

At the same time as I was running my recruitment business I developed and sold a recruitment database "Pipeline" suitable for running a small recruitment agency. Pipeline has been used by companies in Australia, NZ, UK, USA and South Africa. It is still available as freeware but I'm no longer actively developing new features.

### EMERSON ELECTRICAL ENGINEER 2014 - 2015

Design, Production Engineering, Testing and Commissioning of standby power systems for the telecommunications industry

### STAFFORD ISLAND BUSINESS OWNER 2006 - 2014

A recruitment agency sourcing candidates for the electrical engineering industry. My role covered business development, account management, advertising, wages, taxes, insurance. During the busiest years I had contractors in 3 states and a wage bill of ~\$900k pa. as well as making placements for permanent positions.

### COMMAND RECRUITMENT RECRUITMENT CONSULTANT 2004 - 2006

Contract and permanent recruiting for the electrical engineering industry

### ELECTRICAL ENGINEERING ELECTRICAL ENGINEER 1995 - 2004

Design, Production Engineering, Project Management, Testing and Commissioning of stand by power systems for the telecommunications industry. Most of my work was for a company called Com10 who are no longer in business.
